1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anthony Laurentano on June 28, 2004.

The application has been amended as follows:

3. The following is an examiner's statement of reasons for allowance: The prior art fails to teach or suggest the filling and dispensing channels as separate structures both in the tip (i.e., same end portion) of a dispensing pin; the filling channel extending below the dispensing channel, both in the tip of a dispensing pin; or an additional channel coupled to the filling channel and formed by a second pin in proximity to the first pin with the channels formed as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
